Boston, Mass., March 28, 1941.

Town Clerk, Town of Somersworth, Somersworth, N. H.:

Dear Sir: Would you kindly take up with the proper authorities the question of leasing the moving picture theatre owned by the town and now leased to Mr. Gagne.

A lease of the theatre is to be given to me or a corporation to be formed by me for a period of

twenty years at an annual rental of three thousand ($3,000.00) per year payable in equal monthly installments of two hundred and fifty dollars ($250.00).

The lease will provide that I am to spend a reasonable sum of money renovating the theatre and is in other respects to be satisfactory to me or my attorney. As an inducement for entering into this lease, the town is to receive a bonus of three thousand dollars ($3,000.00) and we will undertake to obtain the cancellation of the present outstanding lease.

I shall be very pleased to hear from you further in connection with this matter at your early convenience.

Very truly yours,
Ralph E. Snider,

The foregoing request was refused at a meeting held April 1, 1941.

Somersworth, N. H., April 17, 1941.

STREET COMMISSIONER'S REPORT

Somersworth, N. H., Dec. 31, 1941.

To His Honor, the Mayor, and City Council:

Gentlemen: I submit my annual report for the fiscal year ending December 31, 1941. The general operations of this Department have been carried out as usual, with an increase of costs due to the revision of the wage scale, and the necessary repairs to bridges and equipment which were unforseen at the start of the year.

A vast program of treating our macadam roads was undertaken this year and completed with the following streets receiving a treatment of asphalt instead of the oil used in previous years, upon the recommendation of the Highway Committee. Main, Union, Green, Ford, Pine, Indigo Hill road, Second, Third, Depot, Chesley avenue, Grand, Mt. Vernon, Cliff, Franklin, Prospect, Emery, Wiggin court, King lane, Shorey lane, Grove, Court, Myrtle, Page, Winter, Pearl, Beacon, Hanson, Burke, First, City Barn.

The two bridges on the Salmon Falls road have been replanked and new underpinnings put in and the Eddy Bridge, reinforced iron underneath replaced, which was necessary on account of the heavy traffic this road now receives.

The Blackwater road connecting with Dover and Rochester has been under construction with the assistance of State Aid, and will be completed in 1942.

The grounds around the new Municipal Building were graded and shrubbery set out, also a wicket fence installed, which will assist greatly in the appearance of this building. The curbing between the Main street sidewalk and road has been removed to widen Main street at this point, which has resulted in ample room for parking cars.

Following is an itemized account of expenditures for the past year:

Gasoline	$ 1,693.07	
Oil	110.82	
Grease	22.00	
Tools	394.41

Street Commissioner.

REPORT OF CITY SOLICITOR

Somersworth, N. H., January 17, 1942

To His Honor, the Mayor, and Members of the City Council:

I hereby submit my report as City Solicitor for the year 1941.

At the beginning of the year 1941, there were pending against the City of Somersworth civil suits as shown in my previous report. During the year all of these were disposed of without trial in a manner most favorable to the City. One of these suits was a claim for personal injury received in a fall at the Somersworth Theatre. This matter was compromised without any payment by the City. One suit was for property damage to an automobile caused by an obstruction on Main street and this matter was compromised without any payment by the City. The other two suits were petitions for tax abatement. The Strafford York Gas Company had filed a petition for abatement and was also in arrears in the payment of its taxes. An arrangement was made where the taxes were paid in monthly installments and the assessors lowered the assessment for the year 1941, and the new figures will undoubtedly be continued for some time in the future. The second petition for an abatement was by the owners of Granite State Park and this petition

has been withdrawn without any change in the assessment. Thus, at the present time, there are no suits or petitions pending against the City.

In March, 1941, the City took a tax deed to the property of the Somersworth Woolen Company, the New Dam Mill, so called. After considerable negotiations, continued over a rather lengthy period of time, the property was sold to the Baxter Woolen Company, a Massachusetts corporation. As a result of this sale, the City received full payment of the back taxes and water charges. Included in the price was an additional sum to cover taxes for the year 1941. The mill is now being operated and it is understood that all questions as to the title both as to the property itself and the water rights have been adjusted. It is expected that the operation of this mill will prove to be most beneficial to the community and certainly its operation is something that the people of this community have long waited for.

In looking back over the year that has passed, the outstanding accomplishments, if there be any that may be so characterized, have been in connection with the collection of back taxes and in each case, an effort was made to do what was best for the interest of the city. Much credit is due the Mayor for his most willing cooperation and for his generosity in giving his time and effort whenever the occasion required it.

Aside from the matters mentioned above, the usual routine items were met and disposed of. Insofar as criminal matters are concerned, nothing of any

serious nature occurred during the year and the cases presented in the Municipal Court of Somersworth consisted chiefly of complaints for minor misdemeanors.

Respectfully submitted,

John F. Beamis, Jr.,
City Solicitor.

REPORT OF THE SUPERINTENDENT OF FOREST GLADE CEMETERY

Somersworth, N. H., December 31, 1941

To His Honor, the Mayor, and City Council:

Gentlemen: Herewith I submit a report of the affairs of Forest Glade Cemetery for the year ending December 1, 1941.

The past year has seen the removal of the office building and rest room from the lower part of the cemetery to the main entrance, which has resulted in a much more satisfactory location, for the superintendent and the patrons of these grounds.

The cemetery has had the usual care, insofar as the maintenance of lots and roads.

On May 30, 1941, a lot duplicating the Grand Army lot and situated twenty feet north of this lot was dedicated by the American Legion Post, as "The Veterans' Lot." The deed to this lot was presented to the local post in behalf of the Trustees of the cemetery by His Honor, Mayor Alfred J. Boucher.

There has been erected on the old site of the cemetery barn a new garage and work shop.

The fence on the front of the cemetery has been given two coats of paint also the office and rest room and the well house at the main entrance.

Respectfully submitted,
John R. Hodsdon, Supt.

Comments on Balance Sheet

Exhibit A — Comparative Statement of Assets and Liabilities as at December 31, 1941, and December 31, 1940.

During the year the following additions were made to the plant assets:

Additions to mains ..... $ 1,186.94

Addition of 320 feet of six-inch main on Myrtle street. The cost of this job was relatively high due to excavation costs.

Services 1,162.28

Eighteen new services were installed and 35 renewed. Also five city end only.

Meters 1,000.00

During the year eighty-seven new meters were installed. Plans are in process to meter the entire city when materials are available.

Funded Debt

The bonds were reduced $3,000.00. The present balance of the debt is $21,000.00

Comments on Exhibit B

Exhibit B — Comparative Statement of Operations for the Fiscal Years 1941 and 1940.

During the year, the hydrants were flushed periodically, numerous repairs were made to services and meters. Again I am glad to report there were no abnormal increases in expenses. The total operating expenses show a net decrease of $70.38.

Suggestions

Again I should like to call your attention to the necessity of improving the road from Rochester street to the pumping station as well as the pumping station grounds. The road leading to the deep well should likewise be improved.

As figures show, there is quite an increase in labor, enough so that it warrants having another man, not only to take care of the extra labor, but to insure continued efficiency should the present man be taken sick or be injured.

I do not believe that the labor cost would be much more, as most jobs could be taken care of by the two men.

Reports from the State Board of Health continue to be favorable, and the quality of our water remains excellent.

Lime is still being used at intervals to offset the acid condition of our water.

Respectfully submitted,

Wilfred J. Michel,
Superintendent.

FIRE CHIEF'S REPORT

Somersworth, N. H., January 1, 1942.

To His Honor, the Mayor, and City Council:

Gentlemen: I herewith submit to you my annual report of the Fire Department:

Napoleon Couture, Clyde Harvey
James Shanahan

EQUIPMENT

One American LaFrance Triple combination hose, pump and chemical.

One American LaFrance City Service truck, ladder and chemical.

One Ford V-8 combination pump and hose.

Two emergency hose wagons.

There are at present 3400 feet of hose in good condition, 1400 feet in fair condition, 700 feet of 1½-inch hose and 600 feet of chemical hose.

Total number of alarms	162
Number of box alarms	34
Number of Chimney fires	51
Number of brush fires	69
Number of still alarms	8

Thirty-one permits were issued to burn grass, leaves, etc.

Fire drills were held regularly in the schools.

Chemicals in the public buildings were kept charged and located for emergency use.

Woodlands were kept posted with fire warnings, and closed during dry spells.

Inspections to eliminate fire hazards were conducted every three months.

In closing I wish to thank His Honor, the Mayor, the Committee on Fire Department and all those who have assisted me in the discharge of my duties during the year.

To the officers and members of the department my thanks are also due for their faithful attention to

duty and their promptness in responding to the numerous calls during the year.

I also at this time would recommend the purchase of a new fire engine to replace the 750-gallon pumper that has been in use the past nineteen years.

Respectfully submitted,
John O'Neil,
Chief Engineer.

GENERAL RULES

Firemen as well as citizens should familiarize themselves with the following rules for giving alarms of fire.

1. Never pull a box for a fire seen at a distance.

2. Never pull a box while the alarm bells are ringing, not until a box has completed its four rounds. Two boxes cannot operate together, and neither will work if two are pulled at the same time. Never pull two alarms of two boxes for the same fire.

3. To ring in an alarm, break the glass in the key-box and open the outside door with the key. Pull down the brass crank seen inside, till it stops, then let go. Then let the box alone. The clock will be seen or heard to be running,

and the alarm will follow in half a minute or so. Close the door, but do not try to remove the key, as it is locked in track lock and can only be removed by a release key, which is carried by each engineer, who will, as soon as convenient, release and return it. Remember that the firemen will come directly to the box which has been pulled, and be sure that someone stays at the box to direct them to the fire.

4. Never pull an alarm for a fire seen at a distance. Never touch a box except to give an alarm of fire. Give an alarm for no cause other than actual fire. Don't give an alarm for a chimney fire.

REPORT OF THE TRUSTEES OF THE SOMERSWORTH PUBLIC LIBRARY

Somersworth, N. H., January 1, 1942.

To His Honor, the Mayor, and City Council:

Gentlemen: The Trustees of the Public Library respectfully submit the report of the Librarian for the year ending December 31, 1941.

The routine work of the Library has proceeded as in other years; we feel that excellent results have been obtained and satisfactory service rendered to the people of this city.

We trust that the report of the Librarian will receive your favorable attention, giving as it does receive your favorable attention, giving as it does, an interesting account of the work of the year and also statistics regarding the condition of the Library at the present time.

Respectfully submitted,
Henry P. Mullen,
Alfred J. Boucher,
Arthur A. Guilmette,
Haven Doe,
Library Trustees.

REPORT OF LIBRARIAN

To the Trustees of the Somersworth Public Library:

Gentlemen: Herewith is submitted my report for the year 1941.

It is a difficult task to express in new ways a statement of the library's activities during the past year, but an attempt will be made to give information on the work done, the benefits that are resulting, and the possibility for improved service.

While the circulation was 26,968 volumes, a decrease of 6,958 from the previous year, this does not signify a lost of reading habit; there are several reasons which may account for this decrease. One of the most discouraging and difficult phases in our daily work is the inability to supply enough of the current books, both fiction and non-fiction, to meet the demand.

Our circulation figures increase in proportion to our new book accessions. We try to supply at least one copy of all the "best sellers," but do not deem it advisable to duplicate the title to any extent. There are always requests at the desk for the latest publications and it is one of the most frequent reasons for complaint that the newest books are not always available. We could solve this problem somewhat if we could add to our book fund with which to purchase a greater variety of titles.

Another explanation for the decrease in circulation is the fact that the Book-of-the-Month Club and the Literary Guild have many members in this city; these books are loaned among friends and, while it somewhat relieves the library of meeting so many demands for recent books, it does not add to our circulation.

Yet another cause may be that people are nearly all employed at present and find less spare time to devote to reading than in the days when they were idle and had more leisure.

During the year the Library was represented by your Librarian at the annual meeting of the American Library Association in Boston in June and at the Boston Herald Book Fair in Boston in October.

It was our privilege to entertain District Nine of the New Hampshire Library Association on November 13th. Twenty-six librarians and trustees met in Somersworth at that time, gathering for a luncheon at "The Big Dipper," and then coming to this library for a meeting. The interesting program consisted of a talk by David Jolly, Librarian in Durham, who told of the Hamilton Smith Library and its program; Miss Catherine Pratt, Executive Secretary of the N. H. L. A., who made suggestions as to what and when to discard books, and Miss Elizabeth Leach, Reference Librarian in Dover, who gave some of the highlights of the Boston Herald Book Fair.

December marked the 100th Anniversary of the establishment of a library in the town of Somersworth. No formal observance was made of this anniversary, but a full page story of the library's prog-

ress through the century appeared in the Free Press of January 1, 1942. The history was written by Mr. Eugene Weeden and shows much research into old records of the city's past life.

During the year we acquired 17 books and pamphlets to add to our Daniel Webster collection. Most of the pamphlets are now "out-of-print" and their acquisition is of value to our collection of material on one of New Hampshire's prominent men.

Gifts were received from Mrs. Isabel Anderson, Miss Leonora Bates, Miss Helen Nason, Mrs. Reba Lord Bigelow, Rev. E. E. West, the Federated Church and various authors and publishers. Mrs. Anderson sent us three books of travel; Mrs. Bigelow sent "Saratoga Trunk," by Edna Ferber as her annual contribution to our newest books.

Flowers were furnished during the summer months by members of the Somersworth Garden Club and other friends.

What of our future needs?

Last year I spoke at length of the crowded condition of our library, stressing particularly the need of more adequate shelving for our books; the stacks could be re-arranged and more shelves added with not much expense, and I trust that this matter may soon be given attention.

I cannot emphasize too greatly our need of a larger book fund; the work of the library would seem to warrant the added expenditure. The educational value of the library should be apparent to everyone.

An insufficient budget means that many books which should be in a library of this size are not purchased; also books worn out are not replaced; the rebinding of books is held off and injury is done to books which the library, for lack of funds for binding, continues to circulate.

The following statistics give an account of the work accomplished during 1941.

Number of volumes in Library, Jan. 1, 1942		18,708
Number of volumes added during 1941	435	
Number of volumes discarded (worn out books and old government publications)	240	
Of the 435 new books 377 were acquired by purchase 58 were gifts		
Number of volumes rebound at the bindery	129	
Number of new registrations	152	
Number of persons holding library cards	4696	
Total number of books loaned for home reading		26,968

Of this number 22,671 were adult books
Of this number 4,297 were juvenile books
Of this total number 21,205 were fiction; the other classes of literature numbering 5763 were as follows:

General works	84
Philosophy and Religion	140
Sociology and Economics	420
Essays, Poetry and Drama	536
Natural Science	150
Useful Arts	496

Fine Arts	391
History and Travel	1044
Biography	638
Current Magazines	1575
Books in French	177
Pictures, Pamphlets, Music, Maps	112

In closing, I wish to thank the Trustees for their cooperation during the year.

Respectfully submitted,

Leona H. Savithes,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Somersworth:

I have the honor to present my thirteenth annual report which is the forty-eighth to be made by a Somersworth Superintendent of Schools.

As in all reports made in recent years the statistics and expenditures reported cover the School Year, 1940-1941. The reports of the Headmaster and Nurse cover the same period. However, as this report is made in December following the school's closing in June, my remarks will also include comments on the work undertaken this school year.

ENUMERATION AND ENROLLMENT—1941

Mr. Bertrand Carignan took the Enumeration in October, 1941. I give the figures for comparison as taken by Mr. Antoine Fournier in Ocotober, 1940, and published in the last report.

		1940	1941
Total registration in the city between the ages of 5 and 16:	Boys	674	591
	Girls	618	537
Total registration in the Public Schools:	Under 16 .	633	399
	Over 16 ..	108	97

	1940	1941
Total registration in St. Martin's (including Commercial):	602	607
Total registration in Holy Trinity:	125	122
(None reported in St. Martin's or Holy Trinity over 16)		
Living in the city but attending High school or Academy elsewhere:	10	5
Living in the city but attending Elementary School elsewhere:	5	0

There were reported only five handicapped children under 21 years of age as handicapped and out of school. These pupils are receiving instruction at their homes given by Mrs. Bernadette Pellerin at city expense. This is in accordance with New Hampshire law.

You will notice a large falling off in the total enrollment in the city. The decreasing birth rate cannot account for this entirely but there has been a great shifting of population. The enrollment of the High School reached its expected peak in 1940 and before the close of the school year it began to fall, owing to the improvement of business, enabling those over 16 to obtain work. Your headmaster comments further on this decrease.

We used Surplus Products from the Surplus Commodities Distribution last year for school lunches and are doing the same this year. The use is limited to those products which require no cooking.

The funds from the Milk Benefit moving pictures were sufficient to provide about fifty bottles of free milk daily during "cold weather." The same amount is available this year and it will be spent in the same manner. This is a very worthy project and I wish here to publically thank the Somersworth Theatre Management, the teachers, those who donated candy and any others who assisted in making the affair a financial success.

If you read the report of our school nurse you will note progress with the dental clinic.

The American Legion and Auxiliaries of Strafford County have made possible the purchase of an audiometer to be used in the careful testing of the hearing of the school children of the entire city. This will be done in January.

The State Police will also fingerprint the pupils and employees of the School Department.

In my last report I called attention to the lack of seating in the Chandler Assembly room. The past year has seen the purchase of enough steel folding chairs to seat the entire school.

A new duplicator has also been bought for use in the elementary schools and the office. Defense letters and reports have added materially to the work of the superintendent and his clerk.

The field was again surveyed this fall to see if it would be advisable to set up under Federal auspices, a welding or other defense school. On advice of the representative of the State Department of Education, who helped in the survey, no class has been started. We have been assured, however, that if another school is needed in this vicinity that it will be at Somersworth.

To meet modern demands another shop course, aided by Federal funds, has been added at the High School. Again I refer you to the headmaster's report for details.

The Burleigh and Chandler Schools held special public exercises Memorial Day and Armistice Day. Other special days have also been appropriately observed. Your teachers have continued to give their best service and have indicated their willingness to improve their professional qualifications by attending lectures and travel.

This fall and winter the Burleigh School teachers, together with Miss Keating and Miss McCarthy and the superintendent are attending a course of sixteen lectures being given at Rochester High School by Dr. Donald Durrell of Boston University. The course is proving to be one of great value as the teacher is making it very practical. The course is entitled "Remedial Reading."

Miss Bessie Mullen traveled extensively during the summer, covering twenty-nine states. Other teachers made trips to places of historic interest.

All teachers and the superintendent attended the meeting of the State Teachers' Association and that

of Strafford County. The superintendent attended the meeting of the National Association of School Administrators, held at Atlantic City last February and the meeting of the National Teachers' Association held in Boston in July. The February meeting of the Administrators will this year be held in San Francisco, but the superintendent will not attend. The teachers of this supervisory union have formed an association which will meet at least twice a year with other meetings if need arises.

Your headmaster calls attention to tests given in the High School. In the elementary schools the Metropolitan Achievement tests were used last year and the eighth grade was given the Otis Group Intelligence test and the Standard Achievement tests at graduation.

Transportation three times a day is still continued and is being excellently done.

The naturalization school has been in almost continuous session and there is opportunity for more to attend. There are many in Somersworth yet unnaturalized and the State Department and Committee for Defense is urging that more schools be established. Our school should be crowded.

As we write these lines we are all deeply concerned with the study of evacuation and protection of the school children. Parents may rest assured that we shall attempt at all times to make the building as safe as possible. We are making a serious study of this problem.

In closing this report I wish to call attention to some statement of policies subscribed to by the New

England Superintendents and in which we all take part.

1. We have supreme faith in American Youth.

2. We have continued respect for human values and individual personality.

3. We believe in the continued need for occupational training, without sacrificing what is best in our general plan of education for citizenship and effective living.

4. We believe that our present Health Program should be continued and greatly strengthened.

5. We believe this to be a time when wise expenditure of money for public education should be consistently upheld by the taxpayers and that all selfish attempts to reduce such appropriations in the interest of so-called "Economy" should be strongly opposed.

The rising cost of living and the reduction in buying power make higher salaries and higher general costs inevitable. Higher school appropriations will be required. Committees that fail to provide adequately for conditions ahead are likely to see their schools and the product of their schools severely handicapped. No question exists as to the continuing supply of material resources for our Arsenal of Democracy. There likewise should be no question about adequate support of one of its outstanding spiritual resources, namely the Public School System of America.

6. Finally we call upon citizens, parents, teachers for united assistance in the building of morale,

in the stressing of patriotism and in all practical contributions that may be possible in support of the Defense Program of the Nation.

Respectfully submitted,

Howard L. Winslow,
Superintendent of Schools.

REPORT OF HEADMASTER OF HIGH SCHOOL

To the Superintendent of Schools:

In submitting this report of your High School it would seem desirable to enumerate first, the changes which have occurred during the past year; and secondly, to discuss the present day trends in high school which probably will become the common procedure of the future.

In keeping with the times and present day tendencies the Mechanic Arts course has been expanded by the addition of a fourth year of work and by the inclusion of a course in art metal together with its related subjects. The change necessitated the employment of another teacher in these subjects and we were fortunate enough to secure the services of Mr. Ernando DeVittori, a graduate of the University of New Hampshire, in this department.

At present Mr. Lafond's time is devoted wholly to instruction under the Smith-Hughes Act and he handles exclusively the classes in Auto-Mechanics and General Shop II. Mr. DeVittori instructs the 7th and 8th grade woodworking groups, 9th grade Cabinet Making and 10th Grade Bench Metal work. Under the provisions of the Smith-Hughes Act the classes in Auto-Mechanics and in General Shop II must be conducted for three clock hours each.

The program of studies for the courses in General Shop I and General Shop II are as follows:

GENERAL SHOP I	GENERAL SHOP II
Bench Metal Work	Electricity
General Repairs	Forging
Simple Wiring	Machine Shop Practice
Art Metal	General Metal Work

A problem that has confronted not only our own school but all the schools in the state this year has been the slight though significant decrease in enrollment. This problem merits some consideration. It would appear that under our present system of economy there are bound to be seasonal depressions in the business of education as in all other lines of endeavor. The inevitable result of such seasonal spurts will be that during the boom periods young people lured away by the advantages of a weekly pay check will discontinue their secondary school education. On the other hand, during periods of business depression there will be no employment for this group with the result that again there will be an influx of pupils in our school.

As in any other business the cost of this fluctuation must be considered. The organization must remain intact to care for the constant rise and fall in school enrollments due to these conditions. Since the overhead will remain fairly constant it follows that the per pupil cost will be raised or lowered in a curve that will correspond to these trends. This may be an undesirable situation from the viewpoint of an administrator yet it is a fact and not a theory which is the cause of the problem. What then can be done to alleviate such a condition?

It is an unquestioned fact that our schools are the very foundation of our democracy and that the

schools must be ready, at all times, to foster this spirit of democracy. We must be alive to the needs of the young people and substitute for the attraction of a pay check a more attractive school program and a curriculum which will enable them to secure, after the proper course of training, a much better rate of pay. Added to this will be the consciousness that skilled labor is more admirable than unskilled and that both mental and manual dexterity contribute much to the communal welfare. This the unskilled worker can never hope to supply. Furthermore it must be impressed upon our pupils that the aim of a secondary school is not purely materialistic. It is neither our duty nor our purpose to prepare our youth exclusively for a white collar job or to make of them skilled artisans. Our sole justification for the existence of a public high school is that the product of the school shall be a good citizen equipped to undertake civic responsibility and to be partially prepared to produce a commodity or a service which society demands. It would be most unfortunate if our school should become a purely vocational school. This we are trying to avoid by uniting the cultural with the practical in such a way that our obligations to the Creator shall not be overshadowed by those to the State.

We wish to express our gratitude to the Somersworth Savings Bank for a subscription to the magazine "Banking," and to Mrs. Harold W. Adams for the magazine "Hygeia." Both of these publications come to our school monthly and constitute an important addition to our library.

Respectfully submitted,

John R. Uniack,
Headmaster.

REPORT OF SCHOOL NURSE

To the School Board and Citizens of Somersworth:

The following report is for the school year, September, 1940 to June 1941.

Number of children examined	1288
Defective visions corrected	87
Defective teeth corrected	273
Defective hearing corrected	3
Tonsillectomies	5
Pupils receiving treatment for deformity	4

Communicable Diseases Found:

Chicken pox	4
Measles	2
Pediculosis	83
Skin diseases	14
Flu	205
Number of pupils receiving diphtheria toxin-anti-toxin	21
Number not vaccinated	2

The Annual Milk Fund Benefit was held May 14-15 at the Somersworth Theatre. From this fund 50 undernourished children were provided with milk.

Many thanks are due to all those who purchased tickets for the benefit, and children who sold them, and to those who in any way helped to make this a success.

A clearer understanding of the necessary corrections of defective teeth, eyes, nose and throat has been made through home contacts. Parents have been very cooperative.

During the winter months we were fortunate in having some of the surplus commodities distributed in our schools. This extra nutrition helped considerably children who rode on the bus and those walking a long distance to school.

Each year more fortunate children are asked to bring clothes, shoes, and rubbers for less fortunate ones, and these articles were distributed when needed.

In closing I wish to thank the Superintendent, School Board, Teachers, and Parents for their splendid cooperation.

Respectfully submitted,
Lucille B. Morin, R. N.
